Re: Verification of Employment of Naveen Reddy Alka

To Whom It May Concern:

I am an **Implementation Engineer-III** for **DXC**. I write to certify that Naveen Reddy Alka worked for Cognizant full-time from November 19, 2007 to January 8, 2009. During that time, he held the position of Programmer Analyst and I supervised Mr. Alka in my capacity as Sr. Associate at Cognizant.

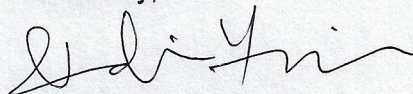

In that position, Mr. Alka provided support to the Amex Account responsible for designing, developing, and maintaining the Amex small business application site. He worked on new features and performance improvements and addressed critical design issues in these software systems. Mr. Alka was crucial in the Apply-Strategy project, which upgraded the data management system for Amex. He was instrumental in the data migration for the project.

Mr. Alka utilized the following skills while employed at Cognizant:

- Java
- J2EE
- Struts
- MySQL
- Dojo
- XSLT
- XSD
- RMI
- EJB
- Tomcat

If you have any questions, you may contact me.

Sincerely,

Zakir Hussain
