Re: Verification of Employment of Naveen Reddy Alka

To Whom It May Concern:

I am the VP Engineering for Wavecrest. I write to certify that Naveen Reddy Alka worked for Wavecrest full-time from November 24, 2009 to December 27, 2013. During that time, he held multiple progressively responsible positions with Dev Lead being the last.

Mr. Alka was a founding member of the engineering team as a Software Engineer and was part of the Payments team that designs and develops new features. In a year he was promoted to Senior Software Engineer with more responsibilities like performance improvements and addressing critical design issues in legacy systems.

As part of the process Mr. Alka was crucial in designing and developing an E-Wallet solution for one of our esteemed clients. For his dedication, hard work and technical know-how he was promoted again to Dev Lead. During this time, I supervised Mr. Alka in my capacity as Principal Architect

Mr. Alka utilized the following skills while employed at Wavecrest:

- Java
- Spring
- Hibernate
- MySQL
- Dojo/JQuery
- RMI/EJB
- Jenkins
- ActiveMQ
- SOAP
- REST
- Redis
- Docker
- Tomcat

If you have any questions, you may contact me.

Sincerely yours

Devarajan Gopalakrishnan
