Nordstrom has more than 300 locations, employs more than 70,000 employees, and generates revenue in excess of \$15 billion per year.

Nordstrom has employed Mr. Naveen Reddy Alka as a Senior Engineer, working 40 hours a week, at an annual salary of \$150,000.00. I provide this letter to describe that progressively responsible experience.

Mr. Alka has held the following positions at Nordstrom:

Senior Engineer, March 19, 2019 – October 31, 2019

- Responsible for feature design; evaluate designs and provide feedback
- Influence quality standards and understand, identify, measure across entire solution
- Identify performance issues and optimize solutions
- Demonstrate strong knowledge of security coding practices and secure system fundamentals
- Understand security protocols, interpret security and compliance requirements

Mr. Alka was a valuable member of our team at Nordstrom. He should be considered an eminently qualified engineer given the progressive responsibilities assigned to him during his employment at our company.
